

I am sick and tired of our politicians being influenced by lobbyists. I want choice in my radio programming. I am sick of Kansas City radio and that is why I purchased a satellite radio so that I can listen to a variety of music, news, weather, traffic, etc.

Please do not be corrupted by money that is thrown the direction of politicians by lobbyists.

Leave satellite radio alone. I will vote against any of my elected officials who jeopardize satellite radio programming.

Sincerely,

David Garrett
